

A box plot for the variable 'Abnormal Points'. The plot shows a distribution with a minimum at 0, a first quartile (Q1) at 1, a median at 2, a third quartile (Q3) at 3, and a maximum at 4. There are several outliers represented by open circles at values 5, 6, 7, 8, and 9. The labels 'Max', '75 percentile', 'Mean', '25 percentile', and 'Min' are placed to the right of the plot to identify these key statistics.
